

ALEC EXPOSED

"ALEC" has long been a secretive collaboration between Big Business and "conservative" politicians. Behind closed doors, they ghostwrite "model" bills to be introduced in state capitols across the country. This agenda-underwritten by global corporations- includes major tax loopholes for big industries and the super rich, proposals to offshore U.S. jobs and gut minimum wage, and efforts to weaken public health, safety, and environmental protections. Although many of these bills have become law, until now, their origin has been largely unknown. With **ALEC EXPOSED**, the Center for Media and Democracy hopes more Americans will study the bills to understand the depth and breadth of how big corporations are changing the legal rules and undermining democracy across the nation.

Resolution Supporting Private Scholarship Tax Credits

Did you know that an online for-profit school company was the corporate co-chair in 2011?

Summary

This resolution declares the state legislative body's support for the creation of a tax credit for individuals and businesses that make a contribution to a nonprofit scholarship or educational assistance organization.

Resolution

WHEREAS, the individual development of young people is critical to their future success and that of this country, and encouraging parental involvement is an important component of a child's success; and

WHEREAS, each child is unique and learns differently, and many children are likely to benefit from expanded educational opportunities, including tutorial assistance, transportation to another public school, after school programs, or attendance at a nonpublic school; and

WHEREAS, the private sector has historically demonstrated an ability and willingness to address many of the challenges facing society, including education; and

WHEREAS, privately-funded scholarships are an excellent and popular means by which parents and guardians can exercise expanded educational opportunities for their children, especially children from low income families and the minority community; and

WHEREAS, a credit against taxes for contributions to nonprofit scholarship or educational assistance organizations will make more privately-funded scholarships available, and thereby expand the educational opportunities available to children of families that have limited financial resources and increase the academic achievements of children across the country;

THEREFORE, BE IT RESOLVED that the {insert name of state legislative body} supports the creation of a tax credit for donations to nonprofit organizations that make more privately funded scholarships and educational assistance available to children.

Adopted by ALEC's Education Task Force at the Annual Meeting August 2, 2001.
Approved by full ALEC Board of Directors September, 2001.

From CMD: This resolution essentially supports corporate and individual subsidization of private schools, which can include for-profit or religious or other private entities, through tax credits. Such tax credits would reduce the amount of revenue for states to fund public schools and other public services. Thus, the tax credit would have the effect of using revenues that would otherwise be available to strengthen public schools to subsidize private education instead.
